

EMERGENCY APPS

Recommended APPS for smartphone users

1. Internet re-broadcast services (online scanner) for monitoring local activity during emergencies
2. Weather app with radar (some local news services offer localized service with alerts)
3. Department of Transportation Emergency Response Guide (identifies hazmats)
4. WISER (National Institute of Health – identification of substances and treatment)
5. Earthquake alert with maps
6. Universal language translator with verbal responses
7. US Army Survival Guide
8. OFFLINE Map App (works without internet connection)
9. PULSEPOINT (fire dispatch data for select cities/counties nationwide)
10. Local news APP (radio & TV)
11. Voice Recorder (for recording critical audio)
12. Phone book (yellow pages)
13. **PDF Reader** with encryption for storing emergency plans, personal data and manuals for gear
14. GPS Monitor that displays your location (non-map dependent)
15. American Red Cross Shelter APP for locations of active shelters
16. Friend Finder App to see locations of family or friends
